Introduction

The Los Angeles County Department of Public Health Solid Waste Management Program (SWMP), acting as the Local Enforcement Agency (LEA), is certified by the California Integrated Waste Management Board to enforce state laws and regulations at solid waste facilities within its jurisdiction. The Puente Hills Materials Recovery Facility operates under a Solid Waste Facility Permit (SWFP) issued by the SWMP and has filed a Report of Facility Information (RFI), which describes the design and operation of the facility, with the SWMP.

Description of Project

The operator has proposed changes to the RFI in order to update information regarding the tipping and floor sorting areas, the hazardous waste screening program, unloading, the emergency notification list, the regulatory agency notification list, and diagrams showing the facility layout and waste flow. No other changes have been proposed.

LEA's Determination

The operator submitted an application for RFI amendments to the SWMP on May 4, 2007. The SWMP reviewed the application and determined that the proposed changes are exempt from the requirements of the California Environmental Quality Act documents, are consistent with State Minimum Standards, and do not conflict with the terms and conditions of the current SWFP, pursuant to Section 21665(c) of Title 27 of the California Code of Regulations (27 CCR). The SWMP approved the RFI amendments on June 4, 2007.

As required by Section 21660.1 of 27 CCR, the SWMP is distributing this notice for the purpose of noticing its acceptance of the amendments to the RFI for the Puente Hills Materials Recovery Facility.

Where to get additional information

Additional information about the application is available at the SWMP office located at 5050 Commerce Drive, Baldwin Park, California 91706, Monday through Friday, 8:00 a.m. to 4:30 p.m. To review the application or the facility file, please make an appointment by contacting Kelvin Kasai, EHS III, at (626) 430-5540.
